Plaza Entry

About the Garden:

The sculpture garden will be located next to the performing arts building within the beautiful setting of LaSalle Park. An entrance plaza will welcome visitors to the garden and serve as a transitional area from the performing arts building to the sculpture garden. The plaza features a manicured lawn at its center as well as a sculpture fountain and possible stage area. The plaza's design creates a gathering space perfect for many outdoor functions. The sculpture trail will wind through an existing wooded area and provide pockets for many sculpture pieces. Expansion of the sculpture garden within LaSalle Park will be possible in the future through a tie-in to the jogging trail.
